The Nevada Childhood Cancer Foundation (NCCF) Education Services Program gives children diagnosed with cancer, sickle cell, HIV/AIDS, hemophilia, renal and immunologic diseases the opportunity to continue their education during their fight against disease. Services include direct, bedside, and classroom instruction and provide hope and normalcy in the lives of students facing the challenges that follow a life-threatening diagnosis.

Established in 1993, the Mission of the Nevada Childhood Cancer Foundation is to provide social, emotional, educational, and psychological support services and programs to families of ALL children diagnosed with life threatening or critical illnesses such as cancer, HIV/AIDS, sickle cell, hemophilia, renal disorders, and immunologic diseases and provide healing arts and wellness programs to adults touched by cancer.

Please call the Nevada Childhood Cancer Foundation at 702.735.8434 or visit www.nvccf.org.
